

2nd Annual MTS-IEEE Educators Workshop Marine Technology in the Classroom

Who: 6th-12th Grade Teachers and Informal Educators

What: Hands-on sessions plus marine technology experts

Where: University of Washington, Seattle; Ocean Sciences Building

When: Saturday, September 18, 2010, 8:00 am – 4:30 pm

Why: Learn to use marine technology in your classroom

PLUS: Chance to win a ROV-in-a-Bag kit

Apply NOW: This workshop is free and limited to 30 educators

Download an application at <http://www.oceans10mtsieeseattle.org/>

Application deadline is **September 3, 2010**

Light breakfast and lunch provided

Free Clock-hours & Certificates of Participation upon request

Workshop Activities:

- ❖ Two hands-on sessions: ROV-in-a-Bag by Erica Moulton, Marine Advanced Technology Education Center and SENSE-IT (Student Enabled Network of Sensors for the Environment using Innovative Technology) by Liesl Hotaling, University of South Florida
- ❖ Tour of Seaglider Fabrication Center and Argo Float Labs (Fritz Stahr & Rick Rupan)
- ❖ “Real World” marine technology presentation by Professional Marine Technologist regarding current affairs
- ❖ Meet teachers experienced in providing STEM activity-based programs in their schools
